=====

International CyberFair is an award-winning authentic project-based learning program used by schools and youth organizations around the world since 1996. Youth conduct research and publish their findings using digital media. CyberFair is an opportunity to engage businesses, schools, and youth organizations in educational activities that improve academic achievement and contribute to mutual awareness and appreciation of their community history, leaders, issues, and needs. Recognition is given to the best projects in each of eight categories.

The theme for **CyberFair 2020** is "**Remember & Unite!**"

Remember the Past, Create the Present, Inspire the Future!

In partnership with the World Future Society, youth are asked to share their dreams for the future - by thinking about the possible future, the probable future, the preferable future and the preventable future.
